

Lube Oil System - Process Flowchart

Compressor K-01 | Source: 123.pdf P&ID

Schematic flow - equipment from extraction; connections inferred from typical lube oil topology

Legend

- Equipment
- Valve
- Instrument
- Process flow
- Return to tank

Process Flow Sequence

Tank -> Pumps P-01/P-02 -> Oil Filter -> Heaters / Cooler
-> Compressor K-01 -> Return to Tank

Valves: PCV-001/002, TCV-005, PZV-001/002/005
